DR. CHELISE FIRMIN, OD
LENSRXLAB Venturer and Chief Medical Officer

ANTHONY B. MILES
LENSRXLAB Managing Venturer and Service-Disabled Veteran
US Navy Trident Nuclear Submarine Force

Info Session 2: Understanding Supplemental Vision Benefits

In this info session, we address what are Supplemental Benefits, how they complement existing coverage, specific benefits provided by LENSRLAB, benefit selection and enrollment process.

Q1: What are supplemental vision benefits, and why are they important?

Dr. Firmin: Supplemental vision benefits are additional coverage beyond basic healthcare plans, specifically focused on eye care services and products. They're essential for comprehensive eye health management, covering expenses like eye exams, prescription eyewear, and specialty eyewear.

Q2: How do supplemental vision benefits complement existing healthcare coverage?

Dr. Firmin: Supplemental vision benefits enhance existing healthcare coverage by addressing specific needs related to eye health that may not be fully covered by primary health insurance plans. This includes coverage for routine eye exams, eyeglasses, contact lenses, and treatments for eye conditions.

Q3: What specific benefits does LENSRLAB offer through its platform?

Dr. Firmin: LENSRLAB's Supplemental Vision Benefits Platform offers a range of benefits tailored to meet the diverse needs of individuals and their families, including access to 30-40% founder subsidized prescription eyewear, specialized eyewear solutions such as safety glasses and diabetic eyewear, and ongoing eye health management support.

Q4: How can individuals determine which supplemental vision benefits are right for them?

Dr. Firmin: Individuals should consider their unique eye health needs, lifestyle, and budget when selecting supplemental vision benefits. Consulting with an eye care professional can help assess these factors and determine the most suitable benefits for optimal eye health management.

Q5: What are some common misconceptions about supplemental vision benefits?

Dr. Firmin: One common misconception is that supplemental vision benefits are unnecessary if an individual already has primary health insurance. However, primary plans often provide limited coverage for eye care, making supplemental benefits crucial for comprehensive eye health management.

Q6: Can you walk us through the process of enrolling in LENSRLAB's Supplemental Vision Benefits Platform?

Dr. Firmin: Certainly. To enroll in LENSRLAB's Supplemental Vision Benefits Platform, government and corporate worksites can visit our website www.lensrxlab.com and navigate to the enrollment section. From there, worksite executives can complete the Trail Enrollment Form <https://accessbenefits.lensrxlab.com/> with their company information, and our team will assist in the enrollment process. Once enrolled, now their employees, patients, service members or beneficiaries can access and redeem their benefits through our platform.

About LENSRLAB SUPPLEMENTAL VISION AND HEALTH BENEFITS PLATFORM

*LENRXLAB Supplemental Vision and Health Benefits Platform is dedicated to providing comprehensive and affordable eye health solutions, encompassing diabetes, safety benefits management, and safety compliance for government and corporate worksites across all 50 States, Washington DC, and US Territories. Our overarching goal is to annually serve 250,000 or more patients, service members, veterans, beneficiaries, and employees with high-quality safety, diabetic, and dress eyewear. Additionally, we aim to reach and benefit 500,000 individuals at risk or diagnosed with diabetes through our innovative DiaVista lens technology.

LENSRLAB is a distinguished Black American and SBA Service-Disabled Veteran-Owned Ophthalmic Goods Manufacturer and Wholesaler Small Business Enterprise. Our leadership, headed by Anthony B. Miles, a US Navy Trident Submarine Force Veteran, and Dr. Chelise Firmin, Optometrist, is rooted in Philadelphia, Pennsylvania, with operations extending to Jacksonville, Florida.
